Deck-Drive™ DSV WOOD Screw

The Deck-Drive™ DSV **WOOD** Screw is a powerful fastening solution for preservative-treated and exterior wood-to-wood decking applications. With its under-head nibs and “high-low” tip, the DSV is ideally suited to be driven and countersunk into today’s wood deck boards. The shank is designed to withstand the swelling and shrinkage that is common with sawn lumber decking. Available in bulk and in collated strips for use in our Quik Drive® auto-feed screw driving system, DSV screws are offered in Tan and Red and in a variety of sizes to fasten fascia and trim.

Features

Ribbed head design countersinks easily and provides a clean, finished appearance

U.S. Patent 6,074,149

Save Time and Money with Higher Installation Speeds and Consistent Performance

The Quik Drive® PRO300S Decking System is ideal for driving collated Deck-Drive™ DSV Wood screws. Stand-up driving allows for improved labor-savings with less user fatigue and better consistency.

The PRO300S Decking System Includes:

- PRO300S Decking attachment (also sold separately)
- Extension for stand-up driving
- Decking nose clip for consistent screw placement
- Quiver for keeping screws at your fingertips
- Rugged tool case
- Choice of Makita®, DeWalt®, or Milwaukee® screwdriver motors
- Lifetime warranty
(see strongtie.com/warranty for more information)

DeWalt, Makita and Milwaukee are trademarks of their respective companies.

System Motor Options	Model No.
DeWalt® 2500 rpm screwdriver motor	PRO300SD25K
Makita® 2500 rpm screwdriver motor	PRO300SM25K
Milwaukee® 2500 rpm screwdriver motor	PRO300SMW25K
